Economy and Thrift consist, not only in saving money and not spending it but also in properly using it. Put your money where it will help to give employment to members of your own race. Economy and Thrift means what you do with your money more than what you do NOT do with it.

The Fraternal Bank and Trust Company operates on its own money and does not loan or speculate with the depositor's money, therefore it is an absolutely safe DEPOSITORY, and is the greatest institution in Fort Worth, owned, operated and controlled by Negroes. Opened for business, January 2, 1912.

We are appreciative of our friends and patrons-We do not hate our enemies. We solicit new business with the assurance of satisfactory service.
